## Work Experience

### Quality Assurance Engineer Intern @ RBC

Sept 2020 - Present // London, ON

- Developed and validated automation scripts based on test requirements
- Assisted in Mobile test automation using Appium.
- Maintained existing automation scripts and executed automated regression plan

## Project Experience

### Full-Stack Developer @ Portfolio Site

Aug 2020 // Toronto, ON

- Created portfolio website to showcase my skills and experience via the world-wide web
- The site was created using ReactJs, npm, CSS, and JavaScript.

### Back-End Developer @ RBC's Next Great Innovator Hackathon (3<sup>rd</sup> Place Winner)

Sept 2019 // Toronto, ON

- Created a non-profitable website that allowed users to donate their items using virtual currency
- Website is a step taken towards the sustainable environment by reducing over-production and eliminating pollution
- Website was created via using tools like eclipse, HTML, JavaScript, and CSS

### Back-End Developer @ HackHarvard 2019 Hackathon

Oct 2019 // Cambridge, MA

- Created an android app using Java and Android Studio used to assist people with hearing impairment
- Program converted a series of images, into text and then to speech
- Functionality was achieved by using tools like Google APIs, and peer-to-peer network

### Game Developer @ CS3307 – Introductory course to OO Design and Analysis

Sept - Dec 2019 // London, ON

- Created retro-maze games that allowed two players to play against each other. Player 1 must find the exist before Player 2 catches it
- This game was developed using tools like UML, C++, Flyweight design pattern, and Visual Studio.
- Project followed Agile methodology, and project management tools like Jira Software, and GitHub were used to supervise the project throughout the semester

## Other Experience

### Assistant Teacher (Paid) @ Louise Arbour F.I Public School

July 2018 // London, ON

- Assisted class teacher with planning lessons, providing input to strengthen delivery of concepts
- Worked with students, one-on-one, evaluating their individual comprehension level and communicating concepts accordingly.
- Formed a comfortable and approachable environment to allow students to seek extra help when required.

### Volunteer Library Assistant @ Sir Frederick Banting Secondary School.

Nov - Dec 2016 // London, ON

- Quickly adapted to feedback, which include introducing new services, and terminating services that no longer serve.
- Effectively managed limited time to accomplish all assigned tasks, which included gathering all requested books, re-stamping sign-out cards, and accurately re-shelving books

## Education
